WARRANTY

Ubisoft warrants to the original purchaser of its products that the products will be free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. Ubisoft products are sold "as is," without any expressed or implied warranties of any kind, and Ubisoft is not liable for any losses or damages of any kind resulting from use of its products. Ubisoft agrees for a period of ninety (90) days to either replace defective product free of charge provided you return the defective item with dated proof of purchase to the store from which the product was originally purchased or repair or replace the defective product at its option free of charge, when accompanied with a proof of purchase and sent to our offices postage prepaid. This warranty is not applicable to normal wear and tear, and shall be void if the defect in the product is found to be as a result of abuse, unreasonable use, mistreatment, or neglect of the product.

Limitations: This warranty is in lieu of all other warranties and no other representations or claims of any nature shall be binding on, or obligate Ubisoft. Any implied warranties applicable to Ubisoft products, including warranties of merchantability and fitness for a particular purpose, are limited to the ninety (90) day period described above. In no event will Ubisoft be liable for any special, incidental, or consequential damages resulting from possession, use, or malfunction of Ubisoft products. Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages. So the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights that vary from state to state.

Notice: Ubisoft reserves the right to make improvements in its products at any time and without notice.

Refunds: Ubisoft cannot provide refunds or otherwise process returns for credit of any kind other than an identical product replacement. Any product refund request must occur at the place of purchase, as the individual retail outlets set their own refund policy. This policy covers identical product replacements only.

Product/Documentation Replacements: Please contact a Ubisoft Technical Support Representative directly before sending your product to us. In many cases, a replacement is not the best solution. Our Support Representatives will help you determine if a replacement is necessary or available. You will need to first acquire an RMA (Return Materials Authorization) number to process your return or replacement. Without an RMA number from a Support Representative, your replacement request will not be processed.

If we determine a return or replacement is necessary:

Within the 90-Day Warranty Period: Please return the product (media only) along with a copy of the original sales receipt, showing the date of purchase, a brief description of the difficulty you are experiencing including your name, address (no PO boxes) and phone number to the address below. If the product was damaged through misuse or accident (cracks, scratches), or if you do not have a dated sales receipt, then this 90-day warranty is rendered void and you will need to follow the instructions for returns after the 90-day warranty period.

After the 90-Day Warranty Period: Please return the product (media only) along with a check or money order for the amount corresponding to your product (see replacement fees below) made payable to Ubisoft, a brief description of the difficulty you are experiencing, including your name, address (no PO boxes), RMA number, and phone number to the address below.

Replacement Fees: Our most recent replacement fee schedule is available online. Please visit http://support.ubi.com for an updated price list.

Warranty Address and Contact Information

Phone: 919-460-9778
Hours: 9am–9pm (EST), M–F
Address: Ubisoft Support • 3200 Gateway Centre Blvd. • Suite 100 • Morrisville, NC 27560
Please use a traceable delivery method when sending products to Ubisoft.
To order Ubisoft products in the United States, please call toll free 888-824-7038.

A Letter from Atrus...

My friend,

Forgive me for not responding to your last letter sooner. The truth is I have been much distracted of late.

As you know, twenty years ago you stumbled upon a Book I thought I had lost. A special "Linking Book" that could transport whoever touched it to a peaceful island paradise called Myst. Myst had been my family's home for years - until my sons, Sirrus and Achenar, betrayed me.

I doubt I will ever know what caused my sons to become so greedy, but when my back was turned they used the other Linking Books I'd written and traveled to worlds more beautiful than Myst. They plundered and destroyed those innocent "Ages." Then they locked me in a place called D'ni to keep me from seeing what they'd done.

Thankfully, you freed me from that prison and let me deal with my sons' treachery myself. Later, you helped me reunite with my wife Catherine, whom Sirrus and Achenar had also deceived. You even helped Catherine and I begin a new life, with our new daughter Yeesha, in a home we call Tomahna. But never once did you ask me about the red and blue Books I'd written to ensnare my own sons - the Books I burned in anger the moment you set me free.

I've often wondered if you thought I'd killed my sons when I burned up those two Books. But never once have I offered you the truth.

Come. Visit me in Tomahna right away. There is much I have to tell you about my sons.

— Atrus

Getting Started on PC

PC SYSTEM REQUIREMENTS

Supported OS: Windows® 98SE/2000/ME/XP (only)
Processor: 700 MHz Pentium® III or AMD Athlon™ or better (Pentium IV recommended)
RAM: 128 MB RAM (256 MB recommended) (256 MB required for XP)
Video Card: 32 MB DirectX® 9.0-compliant video card (64 MB recommended) (see supported list*)
Sound Card: DirectX 9.0-compliant sound card
DirectX: DirectX 9.0 (included on DVD)
DVD: 4x DVD or faster
Hard Drive Space: 3 GB free
Display: 800 x 600 display

*Supported Video Cards at Time of Release

ATI® Radeon™ 7000 to 9800 or better
NVIDIA® GeForce™ 1/2/3/4/FX families
Matrox Parhelia™ (PC only)
Intel® i865G to i915G (PC only)
Laptop models of these cards not supported. These chipsets are the only ones that will run this game. Additional chipsets may be supported after release. For an up-to-date list of supported chipsets, please visit the FAQ for this game on our support website at http://support.ubi.com.

PC INSTALLATION

Installing Myst® IV Revelation on PC

Insert Myst IV Revelation Disc 1 into your DVD drive and click on Install at the Autorun screen. Follow the on-screen instructions.

To begin play, click the Play button at the Autorun screen, or execute Myst IV Revelation from your Windows Start menu by going to Programs/Myst IV Revelation. The Myst IV Revelation DVD must be in your DVD drive in order to play the game.

Uninstalling Myst IV Revelation on PC

Click on your Windows Start menu, then click Programs and then Myst IV Revelation. Click the Uninstall Myst IV Revelation menu item to remove the game. You may also uninstall the game from the Autorun screen of Myst IV Revelation Disc 1.

NOTICE: This game contains technology intended to prevent copying that may conflict with some DVD-RW and virtual drives.

Getting Started on Mac®

MAC SYSTEM REQUIREMENTS

Supported OS: OS X 10.2, 10.3 (only)
Processor: 700 MHz or better, G4 (G5 recommended)
RAM: 128 MB RAM
Video Card: 32 MB video card (64 MB recommended) (see supported list*)
Sound Card: Standard
QuickTime: Version 5 or higher
DVD: 4x DVD or faster
Hard Drive Space: 3 GB free
Display: 800 x 600 display

*Supported Video Cards at Time of Release

ATI Radeon 7500-9600 or better

NVIDIA® Geforce 2/4/FX families or better

Laptop models of these cards not fully supported. These chipsets are the only ones that will run this game. Additional chipsets may be supported after release. For an up-to-date list of supported chipsets, please visit the FAQ for this game on our support website at http://support.ubi.com.

Check the Apple website (www.apple.com) for any Mac OS X upgrades.

MAC INSTALLATION

Installing Myst IV Revelation on Mac

Insert Myst IV Revelation Disc 1 into your DVD drive and double-click the Myst IV Revelation Installer program on the CD. Follow the on-screen instructions to install the game.

To begin play, double-click Myst IV Revelation on your hard drive. The Myst IV Revelation DVD must be in your DVD drive in order to play the game.

Uninstalling Myst IV Revelation on Mac

Drag the Myst IV Revelation folder on your hard drive into the trash and empty the trash.

NOTICE: This game contains technology intended to prevent copying that may conflict with some DVD-RW and virtual drives.

Game Menus

Starting the game leads you to the Main Menu.

- **New Game:** Begin a new game.
- **Load Game:** Load an existing game.
- **Save Game:** Save your progress in a game (this becomes available once you've started a game).
- **Resume Game:** Come back to the game in progress (this becomes available when you reach the menu while you're playing).
- **Options:** Adjust your cursor, game, graphic, or audio options.
- **Credits:** Display the credits of the game.
- **Quit Game:** Quit the game in progress.

You can go back and forth from the game to the Main Menu by pressing the Esc key.

SAVE GAME

Clicking Save Game saves your progress so you can continue your adventure at a later time. Select a Save slot on the right-hand page, enter a name for your saved game in the text box, and click the Save Game button to save your progress. When you enter the Save Game screen, the game will automatically select the next available slot and use the current date as a name for your game. You can also remove old saved games by selecting the saved games you'd like to remove in the right-hand page and clicking either the Delete button or the Delete key on your keyboard.

LOAD GAME

This screen allows you to restore a previously saved game. Simply select the saved game you wish to load, then click on the picture to link back into your saved game. Alternately, you can click on the Load button to restore the currently selected saved game. You can delete games from this menu the same way you can from the Save menu.

OPTIONS

This screen allows you to customize a number of options. The upper tabs let you switch from one option type to another. The four option tabs are Cursor, Game, Audio, and Graphics. Each option page has a Default Settings button to reset all the options on the page to their default values.

Cursor

Because touch is such an important part of the Myst IV Revelation experience, the cursor becomes very important. It's the link between you and the Myst IV Revelation world. Because of this, a number of customization options are available. You will be asked if you're left or right handed and what your favorite color is for the cursor. Moreover, you will be asked to choose the cursor transparency and the speed of the cursor and the camera.

Game

This menu allows you to choose among different game assistance options:

- **ZIP Mode:** This makes navigation faster.
- **Subtitles:** This enables real-time textual translation of the voices heard in the game.
- **Help Map:** This helps you when you are really stuck with a puzzle. Keep in mind that using the Help Map option can alter your gaming experience. Overcoming a greater challenge can often provide greater self-reward.

Audio

Sound and music play as important a part in Myst IV Revelation as the visuals in creating an immersive game experience. In the Audio options menu, you can adjust the volume of the sound and music and change how often music plays. Sounds provide very valuable information in Myst IV Revelation, so it's best to find a setup that will allow you to take advantage of this.

Graphics

The Graphics options menu will allow you to find the graphic quality that best matches the specifications of your hardware. Use the different sliders to optimize the image resolution, contrast, brightness, gamma, and visual effects. You can also activate or deactivate the immersive effects, the water effects, and depth-of-field effects functions.

Playing Myst IV Revelation

From the Main Menu, click on New Game to enter Myst IV Revelation.

CONTROLS

In Myst IV Revelation, you will experience the adventure through what you see, what you hear, and what you touch.

Moving Around

The controls for Myst IV Revelation are very easy. During your exploration, moving the mouse allows you to look and listen in any direction.

In the center of your screen is your personalized hand cursor (see the Cursor section on page 6). The cursor has four states that automatically change depending on the context of your exploration.

The normal state	The interacting state, to perform an action on an object	The magnifying lens state, to get a closer look at some details	The navigation state, to indicate the navigation paths

To perform an action, left-click with the mouse.

Interacting with the World

Left-clicking on objects that are close to you allows your hand cursor to touch them. Holding the left mouse button down can trigger a grabbing motion from the hand cursor (with interactive items). You can then drag the mouse to perform actions like pulling, pushing, or tapping.

Vertical pull and push	Horizontal pull and push	Tapping

Right-clicking is used to change your cursor control from the locked mode to the unlocked mode. In the unlocked mode, the hand cursor is free from the camera. This increases your control for more precise interaction or observation. The unlocked mode also allows access to the interface icons in the lower part of the screen.

Control Table

PC Control	Mac Control	Function
Mouse (move)	Mouse (move)	Rotate your view.
Left mouse button (click)	Mouse button (click)	Touch/tap on something.
Left mouse button (click and hold)	Mouse button (click and hold)	Grab an object.
Left mouse button (click, hold, and drag)	Mouse button (click, hold, and drag)	Grab and manipulate an object.
Right mouse button (click)	Mouse button (click + Control key)	Change the cursor mode or exit close-up view.
Esc	Esc or Clear	Go to Main Menu or exit an interface.
Space Bar		Change the cursor mode.

IN-GAME INTERFACE

The In-Game interface includes four icons: the Camera, Journal, Zip Mode, and Amulet. Each icon opens a specific option.

Left-click on an icon to open its interface.

The Camera

In this interface you are free to take pictures of anything you see in Myst IV Revelation, whether you feel it could be important or just because you find it beautiful. While in this interface, left-clicking will allow you to take a picture of the screen. When a picture has been taken, you are free to view it in your Journal (see the Journal section below).

To exit the Camera interface, you can either right-click or press the Esc key. Pictures of stunning landscapes, strangely shaped objects, or book pages will be added to your Journal this way.

The Journal

The Journal acts, in many ways, as your home base. It contains all the important information you want to carry with you throughout your adventure. You can write notes on empty pages or underneath pictures taken with the Camera interface.

Click the Next and Previous buttons to find the picture you're looking for. You can visualize a full-screen version or delete it. To exit the Journal interface, you can either right-click, simply click on the icon again, or press the Esc key.

The entries in your Journal and the pictures you add to it will allow you to build a personalized record of your adventure. Use it to remember important things – it could come in handy!

The Zip Mode Interface

With the Zip Mode interface, you can quickly access certain areas you have already visited in an Age (if that remains physically accessible from your current location).

When you reach a new area, a thumbnail will be added to your Zip Mode interface. To reach a new area with Zip Mode, simply click on the icon and then on the thumbnail representing the area you want to reach. When the thumbnail is grayed out, it means you cannot access that location at the present time. To exit the Zip Mode, you can either right-click or simply click on the icon again.

The Amulet

At a specific moment during your adventure, an Amulet icon will be added to your interface. When it flashes, just click on it and see what happens!

To exit the Amulet interface, you can either right-click or simply click on the icon again.

Troubleshooting

This section provides information that should help you solve some common problems.

SOUND AND VIDEO CARDS

If you are on a PC, this product requires Windows 98SE/2000/ME/XP and DirectX 9.0-compliant sound and video cards. If you experience problems with sound or video while using this product, please contact the manufacturer of your sound or video card for the latest DirectX-compliant drivers. If such drivers are not used, this product may not run properly on your system.

DIRECTX

This game requires DirectX 9.0 or later. If you do not have DirectX 9.0, then it can be installed or reinstalled from the DVD when installing the game. You can also install it by using Windows Explorer to open the DirectX folder on the game DVD. Double-click on DXSETUP.EXE to start the DirectX 9.0 install. From within the installation program, you can reinstall DirectX 9.0, test your driver's certification, or reinstate your previous audio and video drivers.

Disclaimer

Myst IV Revelation utilizes Microsoft's DirectX sound and video drivers. DirectX is a programming tool created by Microsoft, and the installation of DirectX may cause video problems and system anomalies with computers using video drivers that are not DirectX compliant. DirectX is a Microsoft product, and as such, this publisher cannot be responsible for changes that might occur to your computer system due to its installation. For DirectX-related problems that cannot be fixed by updating to your video card's latest Windows driver set, you must contact either Microsoft or the manufacturer of your video card for further technical support or service. Microsoft retains all intellectual property rights to DirectX. The user has been granted a limited license to use DirectX with Microsoft operating system products.

TECHNICAL SUPPORT

Before contacting Ubisoft's Technical Support Department, please first read through this manual and the README file (on the game CD). Also browse through our FAQ listings or search our support database at our website, **http://support.ubi.com.** Here you will find the most recently updated information since the game's release.

Also please make sure that your computer meets the minimum system requirements, as our support representatives will be unable to assist customers whose computers do not meet these criteria.

Whenever you contact the Technical Support Department, please include the following information or have it available if you are calling:
- Complete product title (including version number).
- Exact error message reported (if applicable) and a brief description of the problem you're encountering.
- Processor speed and manufacturer.
- Amount of RAM.
- Operating system.
- Video card that you are using and amount of RAM it has.
- Maker and speed of your CD-ROM or DVD-ROM drive.
- Type of sound card you are using.

Support Over the Internet: This is the best way to find answers to common issues seen with our games. Our Frequently Asked Questions list is available 24 hours a day, 7 days a week and contains the most up-to-date Technical Support information available, including patches that can be downloaded free of charge. We update the Support pages on a daily basis, so please check here first for solutions to your problems: **http://support.ubi.com.**

Contact Us by Webmail: Due to high volumes of spam, viruses, and other non-support-related contacts, we no longer offer support via standard email. However, we do provide something better, webmail. By taking your questions directly through our website, we have completely eliminated all spam contacts. As a result, we are able to respond to your questions much more quickly than we could through standard email. To send us a webmail simply log into our site at **http://support.ubi.com.**

From this site, you will be able to enter the Ubisoft Solution Center, where you can browse through our lists of Frequently Asked Questions (FAQ), search our database of known problems and solutions, and send in a request for personal assistance from a Technical Support representative by using the **Ask a Question** feature on the Frequently Asked Questions page. Most webmail contacts are responded to within two business days.

Contact Us by Phone: You can also contact us by phone by calling **(919) 460-9778** (for our customers in Quebec, we provide French language support at (866) 824-6515). Please note that this number is for technical assistance only. No gameplay hints or tips are given over the Technical Support line. When calling our Technical Support line, please make sure you are in front of your computer and have all of the necessary information listed above at hand.

Be advised that our Technical Support representatives are available to help you **Monday through Friday from 9 am–9 pm Eastern Time** (French language support available from 7 am–4 pm EST).

While we do not charge for technical support, normal long distance charges apply. To avoid long distance charges, or to contact a support representative directly after these hours, please feel free to browse our Frequently Asked Questions lists or to send us a webmail. Webmail questions usually receive a response within two business days.

Contact Us by Standard Mail: If all else fails you can write to us at:
Ubisoft Technical Support • 3200 Gateway Centre Blvd. • Suite 100 • Morrisville, NC 27560

Return Policy: Please do not send any game returns directly to Ubisoft before contacting Technical Support. It is our policy that game returns must be dealt with by the retailer or online site where you purchased the product. If you have a damaged or scratched CD, please visit the FAQ listing for your game and get the latest replacement policy and pricing. We will not accept unsolicited returns/exchanges without prior approval and an RMA (Return Materials Authorization) number from a support representative.
